Section 3:

**1. What is the nature of the project?**

The development of national facilitators for church multiplication.

**Do you/your ministry have a track record in facilitating SCP with similar kinds of projects?**

Yes. Our ministry has a good reputation for developing innovative, contextualized resources in the Czech language. These resources have been welcomed by nationals and proven to be practically effective. Men we have trained and mentored have established more than twelve congregations.

**2. How did you determine the need for the project?**

Our facilitation team identified national facilitator developmnet (training trainers) as a priority during our 2005 strategic planning.

**What need/s will you try to meet?**

The needs we will try to meet are 1) the training and development of Czech nationals to be facilitators of church multiplication and saturation church planting movements; and, 2) the development of contextualized resources integrating facilitative leadership and church multiplication in the Czech language.

**Offer some brief background.**

There are very limited resources in Czech on facilitative leadership and nothing that integrates it with church multiplication. If nationals are to become facilitative leaders of church multiplication then training resources and a process must be established.

**3. How will the project meet the need you describe above? The project will meet these needs by:**

Phase One. Establish a Common Frame of Reference: 1) Review of key literature (books, journals and articles) on facilitative leadership, especially as it relates to church planting and church multiplication. 2) Participate in a course and/or seminar, offered regionally, on facilitative leadership and church multiplication. 3) Conduct a round of visits, interviews and meetings with leading practitioners, authors and thinkers of church multiplication and facilitative leadership in the region (cross pollinization).

Phase Two. Develop Contextualized Resources: 1) Write an annotated bibliography on facilitative leadership and church multiplication. 2) Write articles on facilitative leadership and church multiplication. 3) Write a workbook on facilitative leadership. 4) Write a seminar participant's notebook on church multiplication.

Phase Three. Publish and/or Implement Resources: 1) Publish the resources enumerated in phase two above. 2) Conduct a pilot workshop on facilitative leadership. 3) Conduct a pilot seminar on church multiplication.

**4. How will you measure your progress/success? Or put another way, what outcomes do you anticipate (outcomes as opposed to activities)?**

Progress/success will be measured/evaluated by completing the tasks enumerated in the three phases above.

Progress/success will also be measured/evaluated by 1) the number of facilitators developed, 2) the number of church planters coached/mentored and, 3) ultimately, the number of churches planted.

**5. With which other ministries/individuals are you cooperating?**

United World Mission, Don Harris  
Global Partners, Matt Blake

SEND International, Brian Dagen  
The CEA, Jiri Unger

KVZ, Josef Pavlinak  
Established denominations and emerging churches

No Boundaries Church, Lukas Targosz

**6. Please provide your estimate of expenses to be covered by your grant request.**

Books and literature for review	1,500
Travel Expenses	2,500
Course registrations (5)	2,500
Design and publication of resources	2,175
Set up fees for pilot workshop and seminar	1,200
<b>TOTAL</b>	<b>9,875</b>

**7. What will you do if you do not receive the funds you desire?**

We will continue with national facilitator development, pay as we go and raise additional funds.

Section 4:

**Summary and conclusion**

The essence of the proposal is to develop facilitators with a blended (expat and national) team. This team, after establishing a common frame of reference for facilitation and church multiplication would develop contextualized resources integrating facilitative leadership and church multiplication. Finally the resources would be published and/or implemented.

A blended team with a common frame of reference possesses the greatest potential for developing contextualized resources integrating facilitative leadership and church multiplication in the Czech Republic.
